Professional Summary

Detail-oriented and passionate Full Stack Web Developer with a deep love for building high-performing, scalable web solutions - especially e-commerce and modern product websites. Known for obsessively testing and refining each feature, including AI-assisted quality checks, to ensure perfection. Currently focused on building AI agents and cloud-native apps, with long-term goals of working with international clients and launching a top-tier software house.

Education

Intermediate in Science - SM Science College, Karachi Board (2024)

Matriculation in Science - Karachi Board (2022)

IT Certifications (2024-2026) - GIAIC & PIAIC (Cloud AI, Agentic AI, Web3)

Projects & Hackathons
